ABOUT US

Established in 2015, the Electronics Product Development Center (EPDC) is a DOST Advanced Science and Technology Institute (DOST-ASTI)'s strategic initiative to support and accelerate innovation in the electronics industry. Backed by seasoned professionals and equipped with state-of-the-art facilities, EPDC transforms ideas into reality by offering end-to-end support for electronics and emerging technology development—from research and design to manufacturing and testing.

By bridging the gap between concept and commercialization, EPDC empowers startups, SMEs, academic institutions, and industry partners to bring their electronic innovations to life. Whether launching a new product, enhancing an existing one, or validating designs for market readiness, EPDC delivers the technical expertise, advanced tools, and modern facilities essential for development. Through accessible services and a commitment to engineering excellence, EPDC drives local innovation and strengthens Filipino-made technologies for global competitiveness.

OUR SERVICES

The Electronics Product Development Center (EPDC) offers a wide range of quality services that support the development of electronic products in the country.

The Research, Engineering, and Development (RED) Unit transforms innovative ideas into practical solutions by offering comprehensive support for Research and Development (R&D) initiatives. With core expertise in Hardware and Mechanical Design, the unit provides the foundational services essential for electronics development. The RED Unit also offers Electronics Equipment Servicing, specializing in the repair and upkeep of custom and specialized equipment.

From design to production, the Manufacturing Unit provides end-to-end solutions—offering precise PCB Fabrication and Assembly, along with custom 3D-Printed enclosures—crafted to meet your product's technical and functional requirements.

Whether in building, refining, or validating existing electronics technology, the Test Engineering Unit houses state-of-the-art resources for its product testing services which include EMC Compliant Testing based on various standards and Product Safety Testing for electrical, thermal, mechanical, and structural reliability, and Parametric Testing.

GENERAL SERVICES

- Technical Training
- Technical Consultation
- Training Room Rental
- Contract Services and Contract Research and Development

RESEARCH, ENGINEERING AND DEVELOPMENT SERVICES

- Electronic Equipment Servicing
- Hardware Design
- Mechanical Design

Additional Services for Hardware Design and Mechanical Design

- Hardware Assembly
- Mechanical Assembly

MANUFACTURING SERVICES

- Printed Circuit Board (PCB) Fabrication
  PCB Allowable Design Dimension (x,y): 190mm x 250mm Maximun
  Layers: 1-2
  PCB Material: FR4 only
- Solder Mask Color: Green, Black, Blue, Red, Orange, White, Yellow, Pink, Purple (subject to color availability)
- Silkscreen Color: Black and White (subject to color availability)
- PCB Assembly
  Parts Acquisition: Service available in Consignment
  Surface Mount Components: 0201 Minimum Chip Package | All kinds except Grid Array Types
  Through-Hole Components: Radial and Axial
- Solder Paste Stencil (Stencil Fabrication)
  Polymide
- 3D Printing
  300 x 300 x 350mm
  Material: PLA and ABS

TEST ENGINEERING SERVICES

ACCREDITED
CERT # 5144.01

ELECTROMAGNETIC COMPATIBILITY TESTING

- Emission Testing
  - RF Conducted Emission (FCC Part 15 Subpart B; CISPR 32; EN 55032; IEC/EN 61000-6-3; IEC/EN 61000-6-4; CISPR 25 Automotive Component Level)
  - RF Radiated Emission (CISPR 32; EN 55032; FCC Part 15 Subpart B; IEC/EN 61000-6-3; IEC/EN 61000-6-4; CISPR 11; CISPR 14-1 & CISPR 14-1 Disturbance Power; CISPR 15*; CISPR 25 Automotive Component Level)
  - Power Line Harmonics (<16A) (IEC 61000-3-2)
  - Power Line Flicker (<16A) (IEC 61000-3-3)
- Transient Testing
  - Electrostatic Discharge (IEC/EN 61000-4-2; CISPR 35; EN 55035; IEC/EN 61000-6-1; CISPR 14-2)
  - Electrical Fast Transient/Burst (IEC/EN 61000-4-4; CISPR 35; EN 55035; IEC/EN 61000-6-1; CISPR 14-2)
  - Surge (IEC/EN 61000-4-5; CISPR 35; EN 55035; IEC/EN 61000-6-1; CISPR 14-2)
  - Power Magnetic Field (IEC/EN 61000-4-8; CISPR 35; EN 55035; IEC/EN 61000-6-1)
  - Impulse Magnetic Field (IEC/EN 61000-4-9; CISPR 35; IEC 61000-6-1; IEC 61000-6-3; IEC 61000-6-4; EN 55035*
  - Voltage Dip, Variations, Interruption (IEC/EN 61000-4-11; CISPR 35; EN 55035; IEC 61000-6-1; CISPR 14-2)
- Immunity Testing
  - RF Conducted Immunity (IEC/EN 61000-4-6; CISPR 35; ISO 11452-4 Automotive Component Level - BCI)
  - RF Radiated Immunity (CISPR 14-2; CISPR 35; IEC/EN 61000-4-3; IEC/EN 61000-6-1; ISO 11452-2 Automotive Component Level)

PRODUCT SAFETY TESTING

IEC 62368-1:2023

- Maximum Voltage, Ampere and Volt-Ampere Measurement
- Input Test
- Reversed DC Input Polarity Test
- Touch Current Strength Test
- Determination or Working Voltage
- Fan Malfunction Test
- Locked Rotor Test
- Blocked Ventilation Opening
- Component Failure
- Output Short Circuit
- Output Overload
- Limited Power Source Measurement
- Separation Requirements
- SELV Reliability Test
- Creepage and Clearance Distance Measurement
- Durability of Marketing
- Cord Anchorage and Strain Relief Test
- Stability Test
- Impact Test
- Drop Test
- Steady Force Test
- Wall/Ceiling Mounted Equipment
- Knob Pull/Handle Loading
- Direct Plug-In Equipment-Moment
- Ball Pressure Test
- Heating Test
- Enclosure Distortion
- Stress Relief
- Resistance to Heat and Fire*

IEC 60068-2-1 Environmental Test A: Cold
IEC 60068-2-2 Environmental Test B: Dry Heat
CHAMBER RENTAL

- **Temperature and Humidity**
- **Oven Chamber**
- **Thermal Shock Chamber**

PARAMETRIC TESTING

- RoHS Directive 1 Measurement*
- BioPac System Verification

TEST EQUIPMENT RENTAL*

- Logic Analyzer (Keysight 16851A)
- Oscilloscope (Rohde & Schwarz RTO1044)
- Oscilloscope (Keysight DSO-X-4024)
- Spectrum Analyzer (Rohde & Schwarz FSV-13)
- Near Field Probe (Rohde & Schwarz HZ-15)
- Thermal Imager (Fluke Ti125)
- Vector Signal Generator (Keysight N5172B)
- Digital Multimeter (Keysight 34461A)
- Semi Anechoic Chamber Rental
- Thermal Shock Chamber Rental (-40 to +150°C)

☐ AC Source (Preen AFC 11005G)
☐ AC & DC Power Source (Pacific 3150AFX)
☐ Memory Hilogger (Hioki LR8402-20)
☐ DC Electronic Load (Keithley 2380-120-60)
☐ Temperature and Humidity Chamber Rental (-40 to +150°C / 10% to 98% RH)
☐ Temperature Oven Chamber Rental (+50 to 300°C)

OTHERS*

- Storage Fee (less than or equal to 1m x 1m x 1.7m volumetric size)
- Storage Fee (more than 1m x 1m x 1.7m volumetric size)
- Full Test Report
- Test Results

NOTES:

☐ Equipment listed " " may be operated in the following modes:
Actual time - equipment is operated by our test engineer
Time sharing - equipment is operated by client's team

* - not covered by the accreditation scope
